Summary

MERN Stack Developer with 2+ years of experience building and maintaining production web applications across OTT streaming, e-commerce, AI-powered products, and multi-role administrative platforms. Skilled in React.js, Next.js, Node.js, Express.js, and MongoDB, with hands-on experience in reusable UI development, REST API design, JWT authentication, RBAC, API integration, state management, and backend services.

Experience

Full Stack Developer

Jul 2024 – Present

Venture Consultancy Services

Lucknow, India

- Delivered 3+ production web applications across OTT streaming, e-commerce, AI-powered products, and multi-role administrative platforms using React.js, Next.js, Node.js, Express.js, and MongoDB.
- Built 50+ responsive frontend screens and 30+ reusable React components using Next.js, Tailwind CSS, Material UI, Zustand, and TanStack Query.
- Designed and maintained 100+ REST API endpoints for authentication, user management, content operations, subscriptions, and administrative workflows using Node.js and Express.js.
- Implemented JWT authentication and role-based access control (RBAC) middleware to secure APIs and application workflows across 5+ user roles.
- Integrated frontend applications with REST APIs using caching, loading states, validation, and structured error handling for reliable user and administrative workflows.

Projects

AstroBharat AI

Live Demo

AI-Powered Astrology Platform

Oct 2025 – Apr 2026

- Developed 50+ responsive application screens using Next.js, React.js, and Tailwind CSS across consultation booking, e-commerce, learning, and spiritual service modules.
- Built 30+ reusable React components with Redux Toolkit and TanStack Query, establishing consistent UI patterns across multiple application modules.
- Implemented role-based administrative interfaces with permission-controlled access across 5+ user roles and integrated REST APIs for complex user workflows.
- Built Digital Mandir backend services and 30+ REST endpoints using Node.js, Express.js, and MongoDB within the broader production ecosystem.

Estoriz

Google Play

OTT Video Streaming Platform

Oct 2025 – Mar 2026

- Developed a React.js administrative dashboard for video publishing, livestream management, advertisements, subscriptions, and platform administration.
- Built reusable UI components, dynamic forms, searchable data tables, and dashboard widgets across multiple administrative modules.
- Implemented role-based access control for 5 distinct user roles and integrated backend services for video management, subscriptions, users, and content workflows.
- Developed 50+ REST API endpoints using Node.js, Express.js, and MongoDB and integrated Mux services for video publishing and livestream operations.

Technical Skills

- **Frontend:** React.js, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS, Material UI, Zustand, Redux Toolkit, TanStack Query, React Hook Form
- **Backend:** Node.js, Express.js, REST APIs, JWT Authentication, RBAC, Middleware, web socket
- **Database & Caching:** MongoDB, Mongoose, Redis
- **Tools & Deployment:** Git, GitHub, GitLab, Postman, Figma, Vercel, Render

Education

Bachelor of Technology (B.Tech) – Information Technology

2020 – 2024

Shri Ramswaroop Memorial College of Engineering and Management

Lucknow, India
